

UCSF CURE

Research Internship

The Helen Diller Family Comprehensive Cancer Center and the Center for Science, Education & Outreach is pleased to announce an exciting PAID internship opportunity.

Participants will gain valuable experience being mentored by UCSF Faculty, Post-Docs & Students while conducting scientific Cancer research. Students will partake in interesting scientific lectures, receive workshops on professionalism and college access, as well as join fun interactive college visits.

APPLICANT ELIGIBILITY REQUIREMENTS

- Must be of either African American or LatinX heritage
- Must be a current junior in high school
- Must have a minimum GPA of 2.5
- Must have completed and passed Biology or Chemistry with a B or better
- Must be able to commit to 40 hours a week during the summer (June 10th -August 10th).
